Forecast for Sunday 02 Jul 2023

Weather: A fine day with periods of sunshine and cloudier spells. Perhaps more in the way of cloud developing during the afternoon with a low chance of a shower. It will be breezy, with brisk westerly winds on top of the summits and gusts possible to the lee of high ground.

Chance of cloud-free hill tops above 600m: 90%

Low cloud and visibility: A few patches of cloud are possible above 700-800m at first, otherwise all cloud will be above the summits. Generally excellent visibilities with superb air clarity and excellent distant views of far-away mountains and landmarks. There is a low risk of visibilities dropping temporarily in any showers.

Meteorologist's View

An unusually blustery day for early July with gusts of up to 40 mph possible at times, especially during the afternoon. The strongest winds will be over the summits and east of major ridges. Despite the brisk winds giving a somewhat cool feel; with high UV levels, remember your sun protection and to stay hydrated.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Monday 03 Jul 2023

Weather: A fine day for the most part although showers possible, particularly into the afternoon where there is a low risk of them merging into longer spells of rain which may turn heavy for a time. Sunny and/or bright spells in between the showers are expected during the day. It will be breezy once again with a brisk westerly wind, and the strongest winds on top of the summits, with gusts possible to the lee of high ground.

Maximum wind: Westerly winds between 20-25mph, gusting 30-35mph (isolated 40 mph across the highest peaks).

Chance of cloud-free hill tops above 600m: 80%

Low cloud and visibility: Cloud expected to stay above hill tops but may drop briefly in any heavy showery outbreaks. Generally excellent visibility for viewpoints, though may temporally drop to moderate or low in precipitation.

Temperature: **Valleys:** Plus 8 Celsius rising to plus 19 Celsius.
At 600m: Plus 6 Celsius rising to plus 12 Celsius.
Freezing level: Well above the summits.
